

Num	Title	Corr. Author	Internal Rev	Int. Rev Pass	Open Access	Journal	Final DOI
1	First evidence of luminescence in a He/CF4 gas mixture induced by non-ionizing accelerated electrons	Davide Pinci	Luigi Benussi Giovanni Maccarrone	Yes	ArXiv Link	JINST	
2	A GEM-based Optically Readout Time Projection Chamber for charged particle tracking	Giovanni Mazzitelli	Andrea Messina Francesco Renga	Yes	ArXiv Link	AIP of Applied Physics (?)	
3	A density-based clustering algorithm for the CYGNO data analysis	Igor A. Costa	Emanuele Di Marco Andrea Messina				
4	Stability and detection performance of a GEM-based Optical Readout TPC with He/CF4 gas mixtures	Davide Pinci	Giulia D'Imperio Davide Piccolo				
5	Identification of nuclear recoils in a gas TPC with optical readout	Emanuele Di Marco	Elisabetta Baracchini Giovanni Mazzitelli
