73rd International Astronautical Congress
Paris, France
18 – 22 September 2022

Subject: IAC 2022 - Notification to Authors

Dear Dr. Bartoloni,

As Co-Chairs of the IAF International Programme Committee, we first would like to thank you for submitting an abstract for the 73rd International Astronautical Congress. This year, the IAC Call for Abstracts has attracted a record number with more than 4,800 submissions from 97 countries. There was a large number of excellent abstracts to review, thus making the selection very challenging for the International Programme Committee during the annual IAF Spring Meetings, which took place last March.

Considering the excellent quality of your abstract “IAC-22,A1,5,x70331 - Dose-Effects Models for Space Radiobiology: an overview on Dose-Effect Relationship”, the International programme Committee would like to retain it for a back-up presentation. This is very good news since all back-up abstracts will be included in the programme as an oral presentation or interactive presentation and their authors will have the opportunity to present it at the Congress. You will be notified of the selected format for your presentation after 10 June. We invite you already to start preparing your materials and register for the Congress. Congratulations!

Confirmation of Presentation

Confirmation of your presentation should be regarded as an undertaking that, the main author shall submit the following materials for the Technical Programme: **a full manuscript and a presentation** to be included in the online Congress Proceedings and the Virtual Technical Gallery. Each paper must be original and unpublished work, not submitted for publication elsewhere (copyright problems fall entirely under responsibility of the authors). The proceedings are published with ISSN and all IAC papers are indexed with SCOPUS and EI Compendex.

Registration Requirements for Authors

It is **mandatory** that at least one author of each accepted paper attends the session and presents the work. Papers that are accepted will be included in the online congress proceedings and the Virtual Technical Gallery **providing at least the presenting author completes registration (including payment) by 5 September at the latest**. Failure to register before the deadline will result in automatic withdrawal of your materials from the congress proceedings. A single registration may cover up to **three (3) papers maximum**.

Registration

Online registration is open at:

<https://iac2022.org/registration/>

Early-bird registration rates are available open until 2nd June.

Author's Roadmap

The IAC 2022 Authors and IP Presenters Roadmaps are already available. Please check them out to make sure that you will have the best experience possible at the Congress:

- [Roadmap for oral presentations](#)
- [Roadmap for interactive presentations](#)

Notification of presentation time

You will receive final confirmation of your place on the programme as well as specific details and information about your session in May. Please note that individual requests for specific presentation dates and/or times cannot be addressed due to the very large number of presentations and other factors that the International Programme Committee must consider when scheduling the overall programme.

Main deadlines

- Submission of your pre-recorded 1-minute Lightning Talk video (*optional*) by **30 June**
- **Submission of final paper (*obligatory*): 2 September**
- **Registration of presenting authors (*obligatory if selected for an Interactive Presentation*): 5 September**
- Congress dates: **18-22 September 2022**

Questions

Feel free to contact us at support@iafastro.org if you have any questions. Please reference your abstract number when contacting us. This will help us to respond to you most quickly and accurately.

Stay tuned to our website for more updates on the Technical Programme:
